## Dimension

2-STRIP: 14 & 22 mm x 129 mm (thickness x width)

PLANK: 15 x 129 mm | 20,5 x 140/185 mm (thickness x width)

**Grade** *See images on the back side*

HARMONY

This grade has a natural look with visible colour and structural graining variation between the individual staves. Lighter tones of colour are seen along the grain pattern and in the sapwood. Medium sized knots and natural fine splits occur to some degree. Knots and other irregularities are factory filled with a one colour filler.

## About the floor

Oak is a hardwood species characterised by having a very interesting grain structure. The wood species is exceptionally hard-wearing and therefore very suitable for flooring. When oak is toned with the colour Driftwood Grey the floor appears in calm grey-brown shades beautifully enhancing the natural grain structure of the wood. The colour is ideal where a hint of colour is desired to complement the interior of the room.

2-STRIP: Junckers solid hardwood flooring is produced and categorized in accordance with EN 13629, EN 14342 and Junckers own factory standard.

PLANK: Junckers solid hardwood flooring is produced and categorized in accordance with EN 13226, EN 14342 and Junckers own factory standard.

The floors are made exclusively from solid hardwood and each image illustrates the colour, knots and structural graining variation characteristic for the specific wood species and grade.

Each image shows the average appearance of the individual grade. It is normal to see a variation in appearance between individual planks and floors produced and installed at differing times.

Up to 5 % of the planks may contain features of the next style.

Hardwood floors may fade and change colour over time, especially when exposed directly to sunlight.

## OAK DRIFTWOOD GREY | GRADES

The actual colour on a wooden floor can vary from the colour shown in this style chart. This is due to the fact that colours are very difficult to reproduce online and in printed material. Junckers accepts no liability to discrepancies and we always recommend ordering a physical sample before placing an order.
